

CHECKOUT POLICY

All Winona Public Library materials are now fine-free. However, please note that the policy does not extend to fines and fees on materials borrowed through the SELCO system. In addition, patrons of all ages will still be responsible for returning library materials within 30 days of the due date or a replacement fee for that item will be charged.

Effective April 1st, 2024, most items (except for special collections) will have a 3-week loan period. SELCO libraries agreed on a region-wide streamlining of loan periods for consistency and interlibrary loan convenience. We remain fine-free and still allow 2 renewals on most items.

- You may check out up to 50 items. No more than 20 of the items may be movies.
- Fees may be paid at the Checkout Desk of the library or online via [My Account](#) in our catalog.
- If you accumulate more than \$10.00 in fees, loan privileges will be suspended until paid.
- Refunds will only be issued if the lost item is returned within 30 days of the payment date and the cost is \$25 or more.

Requests

You may request up to 20 items on your card. Items can be requested directly from our [online catalog](#). You will be notified when items you have requested arrive and you have 7 days to come pick them up.

Renewals

Items may be renewed up to two times, provided there are no requests on the items and they are not more than one week overdue. Materials on loan from outside the SELCO region may be renewed (1 two-week renewal from the original due date). You may call to renew items by phone at [507-452-4582](tel:507-452-4582), or online via [My Account](#) in our catalog. Please note that if an item is overdue you will not be able to renew it online.

Interlibrary Loan

Materials that the Winona Public Library does not own can often be borrowed from other libraries at no charge. Librarians at the Reference Desk on the second floor of the library can locate and request these items for you. Items can be obtained from libraries within the [SELCO region](#) or the State of Minnesota via [MNLink](#).
